September 23, 2011

TO: Parents or guardians of children enrolled at the following school(s):

**Hall Middle School
Tamiscal High School
San Andreas High School**

All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #23510 for the following source(s) of air pollution:

**Stationary Emergency Generator- Diesel Engine
Twin Cities Police Authority
250 Doherty Drive
Larkspur, CA 94939**

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

Twin Cities Police Authority has applied for an Authority to Construct and/or Permit to Operate a Stationary Emergency Diesel Engine Powered Generator that will be used for providing electrical or mechanical work during emergencies, and will be periodically run for maintenance, reliability testing, and/or emissions testing.
