Computer and Internet Use Agreement

Tamalpais Union High School District

Educational Computer Use and Internet Privileges

The Marin County Office of Education and the Tamalpais Union High School District provide educational computer accounts, allowing access to the Internet. Internet access is coordinated through a complex association of government agencies and regional and state networks. The smooth operation of the network depends upon the proper conduct of the end users who must adhere to strict guidelines. These guidelines are provided here so that you are aware of your responsibilities.

In general, the smooth operation of the network requires efficient, ethical, and legal use of network resources. If a user violates any of the following terms and conditions, school computer use and Internet privileges will be revoked and future access may be denied. The signatures at the end of this document are legally binding and indicate that the parties who signed have read the terms and conditions carefully and understand their significance. The Tamalpais Union High School District computer use is governed by policies and administrative regulations established by the Board of Trustees (BP/AR 6163.4—Use of Technology, BP/AR 6162.6—Use of Copyrighted Materials).

Terms and Conditions (for Educational Computer Use and Internet Privileges)

Acceptable Use

The use of your school computers must be in support of education and research and consistent with the educational objectives of your district. Use of another organization's network or computing resources must comply with the rules appropriate for that network.

Unacceptable Use

Transmission of material in violation of any US or state regulation is prohibited. This includes, but is not limited to, copyrighted material, illegal, threatening, harassing, violent or obscene material, and matter protected by trade secret. Altering or removing computer files not belonging to the user, installing unlicensed software, creating links to inappropriate materials, disconnecting equipment, and vandalism of any kind are also prohibited. Use for commercial activities is not acceptable. Use for product advertisement or political lobbying is also prohibited. Any transmission or reception of pornographic material is expressly prohibited and will result in the cancellation of your computer privileges.

Privileges and Consequences

The use of school computers and the use of the Internet are privileges, and unacceptable use will result in the cancellation of those privileges. The system administrator may revoke privileges at any time as required. The administration, faculty, and staff of any district school may request that the system administrator deny, revoke, or suspend specific user privileges and that appropriate school disciplinary action be taken. Depending on the severity of the violation (to be determined by the system administrator and/or administration), computer privileges may be revoked for an extended period of time. A student who has his/her computer privileges revoked is not allowed to use *any* computer at her/his school site.

If you can identify a security problem on the network, notify your teacher, the system administrator, or the principal. You are not permitted to use another individual's account, and you should never allow anyone else to access your account. If, at any time, you feel that your password may have been compromised, see the system administrator immediately to have your password changed.
