

NEW TERMS (definitions from Exploring Polarity lab):

23. Cohesion

24. Adhesion

25. Electronegativity

26. Dipole moment

You may make physical notecards or, if you prefer, make a Quizlet with these terms. We will be adding to our notecards as we learn more terms in the unit.

Vocabulary terms we've already reviewed...

1. Matter
2. Atom
3. Proton
4. Neutron
5. Electron
6. Nucleus
7. Element
8. Ion
9. Isotope
10. Atomic number
11. Atomic mass
12. Group
13. Period
14. Atomic radius
15. Valence electrons
16. Ionization energy
17. Molecule
18. Compound
19. Ionic bond
20. Covalent bond
21. Polar covalent bond
22. Non-polar covalent bond
