2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

The staff at Redwood High School believes that students are the focus for all endeavors in the school. We believe we have an obligation to educate the "whole person" academically, socially, emotionally, and ethically. Redwood High School is a learning community where students demonstrate academic and personal growth through authentic, rigorous, and relevant pursuits. We strive to instill in our learners the ability to investigate and explore, acquire knowledge through a variety of experiences, and discover personal success through creative, balanced, and healthful endeavors.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The district uses a curriculum review and development process that ensures all district curriculum is compared to state content standards at least every five years. The selection and evaluation of the instructional materials is coordinated with the process for curriculum development. This curriculum cycle also provides opportunity to update supplementary and electronic instructional materials. All students in the district are provided copies of and access to standards-aligned textbooks and other instructional resources, which have been adopted by the governing board of the Tamalpais Union High School District and curriculum frameworks are consistent with those adopted by the California State Board of Education in the core areas of English Language Arts, Mathematics, Science, Social Science, World Languages and Health. TUHSD has adopted materials in Science aligned to the Next Generation Science Standards.

The district's textbook and instructional materials purchase process assures that student enrollments, by course, are used to determine the numbers of copies of books to order so that each student has his/her own materials to use at school and at home. Instructional materials are selected after courses of study are reviewed and updated, to ensure that they are aligned with the state content and performance standards for that course. The district also has established a standard equipment list for all science classes to ensure that each science lab is equitably equipped with the necessary laboratory equipment.

School Facility Conditions and Planned Improvements

The District makes considerable efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the district uses a school facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the district office.

Redwood High School is a 63.88 acre campus which has 88 classrooms, a library, performing arts center, swimming pool, and athletics fields. The original campus was built in 1958. In 1998, the district's Long Range Facilities Planning Committee developed specific standards for all district facilities in the areas of building integrity, mechanical and plumbing systems, electrical system, structural safety, accessibility, educational technology, and instructional facilities (classrooms, science labs, libraries, multi-use facilities, visual arts rooms, gyms, and athletic fields) teacher work areas, food service, paving and drainage, landscape and irrigation. The results of this study are published in the District Facilities Master Plan.

School Facility Conditions and Planned Improvements

Redwood High School underwent major modernization as part of a \$121 million dollar facilities bond measure approved by the Tam District voters. Approximately forty million dollars were spent to remodel classrooms, refurbish the gymnasium, swimming pool, tennis courts, and performing arts center, and install new athletics fields. During the 2012-13 school year, a new visual arts building was constructed and the music building was expanded and refurbished. In 2013-14, two existing classrooms were converted to science laboratory classrooms, a visual arts room was converted into a "black-box" theater/rehearsal classroom space and a soccer/lacrosse field was refurbished for year-round play using artificial turf. Modernization has included replacement of the major infrastructures (heating, lights, electrical, plumbing), painting, new floors, lockers, and furniture. Technology networking has been upgraded and is accessible in all instructional spaces. In 2015, a solar upgrade was completed in the west parking lot. During the summer of 2017, a new artificial turf was installed on the football field, additional Physical Education and Athletic lockers were added and three new portable classrooms were installed to support growth in student enrollment. In addition, improvements were made to the Counseling Office and Wellness Center. Gymnasium lights were converted into LED lights in the summer of 2018. During the summer of 2018, in order to support the continued growth in student enrollment, four additional portable classrooms and two modular restrooms were added. In addition, the computer lab in the library underwent a major renovation. In the summer of 2020, two additional rooms were converted into science rooms. The Director of Maintenance has established a regular standard for cleaning all district facilities. A custodial staff with assigned routes cleans and maintains all campus areas on a regular basis. Classrooms, offices and restrooms are cleaned every day. An on-line Maintenance Work Order system is used to report and monitor the status of maintenance requests.

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis to assist school districts with expenditures for major repair or replacement of existing school building components. Roofing, plumbing, paving, heating, painting are typical projects funded in this manner. The district's five-year deferred maintenance plan is available from the Director of Maintenance and Operations.

Campus supervisors and administrators are on duty supervising the campus before, during, and after school. They routinely monitor the entire campus, including surrounding streets. The school has a system for visitor check-in with signs posted to direct the public to the office. Procedures are in place to handle unauthorized access during the school day.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	83	N/A	76	N/A	47
Mathematics (grades 3-8 and 11)	N/A	67	N/A	59	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 Career Technical Education Programs

The Applied Technology Department offers a variety of courses that prepare students for the expectations of college and the workplace. The department offers computer courses in computer programming, including AP Computer Science, and computer graphics courses. Additionally, the department offers courses in Construction Technology, Architectural Design, Engineering Design and Engineering Projects. These courses are offered as electives for all students and incorporate academic core competencies from multiple subjects including reading, writing, mathematics, chemistry and physics. The career/work preparation needs of all students are addressed as each of these courses includes course-specific and general career preparation skills as part of the established curriculum. Success in these programs is measured using a variety of projects and assignments showing student proficiency in the course and program outcomes. Students overwhelmingly succeed in these courses.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Redwood High encourages parent involvement. Parent organizations include Redwood Parent-Teacher-Student Association (PTSA), Redwood Foundation, and booster groups for athletics and music. Parents are encouraged to volunteer at the school helping with such things as new student orientation, assistance in the College and Career Center and library, parent education, and campus beautification. Parents also serve on the Redwood High School Site Council. If you have questions about how to get involved at Redwood High School, you can access the Redwood website at www.redwood.org or call 415-945-3620.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	1.25	1.01	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

The school's Emergency Plan and Procedures are on file in the principal's office. Drills are held during both fall and spring semester to prepare staff and students for various kinds of emergency situations, including fire, earthquake, Intruder on Campus and Shelter in Place. These plans and procedures are kept in a red folder near the entrance of each classroom and reviewed and updated at the start of each school year. Each classroom and office has been supplied with an emergency backpack that contains first aid supplies and equipment and emergency containers that are equipped with emergency food and water. Additionally, each classroom and office has been supplied with an emergency portable toilet.

The school has a strong working relationship with local law enforcement and emergency services in both Larkspur and Corte Madera, including a School Resource Officer from the local police department. In partnership with our local law enforcement and emergency services, school administration reviews the school's Emergency Plan and Procedures each year. The relationship ensures clear channels of communication and up-to-date information. Crisis counseling can be provided as needed by Redwood staff, including Wellness Center staff, and adjunct support services, such as Bay Area Community Resources. The school safety plan is reviewed and updated as necessary each fall and spring.

2019-20 Secondary Average Class Size and Class Size Distribution

2021-22 Types of Services Funded

The district provides certificated teachers and counselors, certificated administrators, and classified support staff. Support staff includes clerical, custodial, campus supervisory, and ground/maintenance personnel. Each comprehensive high school has a Health Specialist, one Technology Support staff, and a Library/Media Specialist on site. English Language Learners have access to a full program of ELD. The AVID (Advancement via Individual Determination) program helps prepare motivated students in the academic middle for admission to a four-year college or university. An extensive array of supplemental instructional services is provided including short term workshops and independent study. The Wellness Center coordinates and provides health, mental health, reproductive health and substance abuse services and programs for Redwood High School students. The District contracts with community agencies to provide extra drug/alcohol and mental health counseling. A full interscholastic athletic program is supported. Students have access to a wide variety of co- and extra-curricular activities including drama, music, journalism, clubs, and other activities. The per pupil allocation also covers the cost of all instructional materials and equipment, including technology.

Professional Development

The Tamalpais Union High School District annually schedules two full-day and two minimum day staff development days during each school year. The primary staff development focus has been on equity and instructional strategies. Teachers collaborate to share experiences and student learning data to inform student support decisions and teacher instructional decisions. Additionally, professional development time is used to review the course of study, select textbooks, develop new programs, and participate in staff development training. Administrators, counselors, and teachers participate in numerous other staff development opportunities each school year including leadership skills development, technology integration and equity training.

This table displays the number of school days dedicated to staff development and continuous improvement.
