

1) $34 = 17 + 20\cos(A)$

2) $12 = 15 + 7\cos(A)$

3) $b^2 = 24 - 4\cos(56^\circ)$

4) Find the value of b and find the area of the \triangle .

$b =$ _____
 Area = _____

5) Find the value of A and find the area of the \triangle .

$A =$ _____
 Area = _____
