ATTENDANCE

Students are required to attend classes in accordance with compulsory full-time education laws (Education Code 48200). Categories for attendance accountability include the following:

Excused Absence

An excused absence is defined under Board Policy 5113. The teacher is to allow a student to make up the work missed during absences to the degree it is possible for such work to be completed. An excused absence shall be granted for the following reasons:

- Personal illness;
- Quarantine under city or county direction;
- Medical, dental, optometry, or chiropractic services, although students are strongly encouraged to make these appointments outside of school hours;
- Attending funeral services of an immediate family member. Excused absences are limited to one (1) day if funeral is in California and three days (3) if the service is conducted outside California;
- Exclusion for not having been properly immunized. Such absence excused for not more than five (5) school days;
- Jury duty;
- Participation in religious instruction or exercises in accordance with District policy; and
- Serving as a member of a precinct board for an election (Election Code Section 12302).

The school may request medical verification when the student has ten (10) or more medically excused absences per year. The school is required to document verification of the reason of an absence. In addition to a note or call, a school employee may visit the student's home or use any other reasonable method to establish the fact that the student was actually absent for the reason stated (AR 5113).

Warranted Absence

According to BP/AR 5113, a warranted absence must be requested in writing at least two (2) days prior to the absence, must be approved by a site administrator, and, unless otherwise designated below, signed by the teachers of the classes missed. Any absence that isn't requested in advance and in writing will be considered unexcused. Prior approval may be waived by the principal or designee only under exceptional, unanticipated circumstances. The administrator will consider student attendance patterns, current academic performance and previous requests when approving a request for a warranted absence.

The teacher of any class from which the student is absent shall determine, pursuant to the regulations of the Board, what assignments the student shall make up and in what period of time the student shall complete such assignments. The tests and assignments shall be reasonably equivalent to, but not necessarily identical to, the tests and assignments that the student missed during the absence.

A warranted absence may be requested for justifiable personal reasons, including but not limited to, the following:

- Appearance in court;
- Attendance at a funeral service for an aunt, uncle or cousin, or a person other than a member of the student's immediate family;
- Observation of a holiday or religious ceremony, with principal or designees approval and not limited to one (1) day of excusal;

- Attendance at religious retreats for no more than four (4) hours during a semester;
- Employment conference or interview;
- College visits. Limit of three (3) days per year;
- Bereavement beyond excused absence days;
- Tending to an illness or a medical appointment during school hours of a student's custodial child;
- Outdoor Education, or other educational programs sponsored by the school, District or county;
- Partial day absences caused by circumstances beyond the student's control (bus breakdowns highway flooding, etc.) and approved by the principal or designee within one (1) school day of the student's return to school; and,
- Other justifiable personal reasons authorized by the school.

FAMILY TRIPS AND VACATIONS WILL NOT BE WARRANTED UNDER THIS POLICY
Parents/guardians are encouraged to plan family trips and vacations outside of the school year.

Unexcused Absence

According to AR 5113, students may not make up work missed during an unexcused absence except for suspensions. Unexcused absences may lead to loss of credit under school credit loss policies. Unexcused absences include, but are not limited to, the following:

- Cutting class or school;
- Oversleeping, car trouble, missing a ride, etc.;
- Any absence which is not cleared within one (1) day after the student returns to school;
- Extended weekends or family vacations;
- Detainment in juvenile hall; and,
- Suspensions.

Suspensions

Suspensions are unexcused absences and may result in grade reduction. However, work missed due to a suspension may be made up. Teachers of any class from which a student is suspended shall provide to the student all assignments and tests the student would otherwise miss while suspended. Teachers may require the suspended student to complete any assignments and tests missed during the suspension (AR 5144, EC §48913).

Loss of Credit for Excessive Unexcused Absences

The Board-adopted attendance policy attaches credits to time/participation in class. A student in any class may lose one semester unit for five (5) unexcused absences in that class. Loss of credit in courses required for graduation necessitates retaking the course. Beyond the loss of one credit due to excessive absences, students run the risk of failing and, therefore, receiving no credit. Second semester seniors need to be particularly mindful of this.

A student losing credit due to excessive unexcused absences may not be eligible for a parking permit.

If a student is in danger of losing credit, written notice to the parent/guardian shall be sent to provide an opportunity for a conference. During the conference, the student or parent shall have an opportunity to explain the absences.

Appeals

A student or parent/guardian may appeal loss of credit by written letter to an assistant principal. Within 30 days of the written appeal, the assistant principal shall convene a committee comprised of at least two District administrators or members of the local School Attendance Review Board in order to determine a judgment on the appeal. The committee shall sustain or deny the appeal and its decision shall be final.

Grade Reduction for Unexcused Absences

According to BP/AR 5113, a teacher may lower a student's grade a full grade or assign a failing grade if the student has four (4) or more unexcused absences. The student's record will indicate that the failing grade was assigned due to excessive absences (Ed. Code §49067). If the student is in danger of failing for excessive unexcused absences, the teacher shall send written notice to the parent/guardian to provide an opportunity for a conference with the parent or student to explain the absences. Schools shall treat block or extended class periods as one period for grade reduction purposes. Warranted absences will not be cause for grade reduction or failures under this policy section.

Attendance Procedures

- Students who have been absent must have their absence(s) cleared on or before the day of return.
- Absences not cleared on the day of return will be recorded as unexcused (Board Policy 5113). Parents are therefore urged to call the school office **every day of the student's absence**. This procedure will guarantee that absences are accurately cleared and will enable teachers to issue make-up work and support students who are legitimately absent.
- If a student becomes ill or injured while at school, they are to report to the school office in order to notify their parent or guardian and make arrangements for a Permit to Leave School if necessary. **Any student who leaves school without clearing with the office will be considered unexcused.**
- In the event parents are out of the area and cannot be reached for medical or emergency reasons, they must contact school office to provide the duration of the absence and the name, address and telephone number of the person(s) responsible for the care of their student(s) while they are away.
- Students are expected to make routine medical appointments after school hours. In the event this is not possible, parents or guardians must phone or send a note to the school before students may leave the school grounds. If a student leaves campus without checking out with the office, the absence is considered unexcused and cannot be excused.
- Students who are 18 or older may provide their own excuses for absences (EC 46012). The school reserves the right to notify parents when excessive absences are excused by an adult student.
- Additional information is located on each school's website or in the site Handbook Addendum.

Homework Requests

Homework may be requested school once student has been ill for two (2) full days. Please contact teachers by phone or e-mail. Homework may also be accessed through the school/teacher's website.

Attendance Errors

Correction slips may be obtained from school and submitted to teachers for signature. This form must be returned to attendance within two (2) school weeks in order to receive requested correction. Additional information is located on each school's website or in the site Handbook Addendum.

School Attendance Review Board

According to EC §48260, a student is considered truant "who is absent from school without valid excuse three (3) full days in one school year or tardy or absent for more than any 30-minute period during the school day without a valid excuse on three (3) occasions in one school year, or any combination thereof." The formal procedure for dealing with truant students includes issuing letters of notification to parents of truant students, meeting with the Student Attendance Review Board as a means of intervention, and referring students to alternative classrooms or schools, as necessary (AR 5113.1).

Open Campus at Lunch Time

The Board of Trustees establishes an open campus at all District high schools only during the lunch period (BP 5112.5). While off campus, students are expected to practice responsible behavior and to return to their next period classes on time. Students shall not leave the school grounds without permission of school authorities at times other than lunch. Students are subject to school disciplinary consequences, up to and including suspension and expulsion for offenses that occur off campus during the school day. The principal is authorized to close the campus under the conditions of emergency or to ensure student health and safety.

Tardy/Absence Policy

Attendance is an important factor in a student's success at school. Because attendance affects grades, each school site has a consistent policy for relating attendance and grades. Details regarding the site-based policy are available at each school's web site.

Student Residency/InterDistrict Transfer Policy

Under the California Education Code, students are required to attend school in the district where their parent or guardian resides, unless they obtain an Interdistrict attendance transfer. Students who reside outside the boundaries of the Tamalpais Union High School District may attend district schools only if they have an Interdistrict Transfer Request approved by both the student's district of residence and the Tamalpais Union High School District. Interdistrict Transfer Requests must be approved **annually** for each student. The application process begins at the student's district of residence.

The Tamalpais Union High School District will approve an Interdistrict Transfer Request into the district for the comprehensive schools only if the transfer request meets the criteria set forth in BP/AR 5117-Interdistrict Attendance.

The superintendent will deny a transfer, or revoke an existing transfer, if material information provided on the transfer form, or submitted in support of the initial claim of residency, is discovered to be false or fraudulent.

Student Employment

Ongoing, regularly scheduled student employment will not be warranted under this policy. Students are expected to plan ongoing, scheduled employment opportunities outside the school day, enroll in the Workplace Learning course, or seek approval for a reduced instructional day (*cf 6178.1-Work Experience Education*).

GRADING

Grading Symbol

The purpose of grading is to communicate the level of achievement in the educational program to the students, the parents, and institutions of higher learning, prospective employers, counselors, and other schools the student might attend.

Under BP 5121, symbols used and the meaning of such symbols is as follows:

A	Excellent achievement
B	Good achievement
C	Satisfactory achievement
D	Poor, but passing achievement
F	Failing to meet minimum standard of achievement
P	Pass
NM	No mark
I	Incomplete
CR/NC	Credit/No-Credit
W	Withdrawal

No Mark

- The NM mark is to be used for a student who, for reasons beyond his/her control, could not fulfill the requirements of a course.
- NM symbol is to be used to designate audit when a student has completed audit provisions as approved.
- Students and parents should refer to Marin County Athletic League/North Coast Section guidelines with reference to NM grades (page 10).

Incomplete

- A grade of Incomplete may be given when the structure of a course allows for such grading or when a student's work is not finished because of illness or other excused absence.
- If not made up within six (6) weeks, the Incomplete will become an "F".
- For purposes of athletic eligibility, an Incomplete registers as a grade of "F."

Credit / No-Credit

There are two ways to implement the Credit/No Credit basis for grading:

- The instructional departments will determine the courses in their programs to be offered on a Credit/No-Credit basis.
- This option is specified in a student's IEP or 504 plan. A student must have written parental consent in order to take a course on a Credit/No-Credit basis.
- A student may take no more than two (2) courses on a Credit/No-Credit basis in any one semester. Exception to this limit may be specified in a student's IEP or 504 plan.

- Courses taken for Credit/No Credit are not computed in a student's grade point average but are entered on his/her transcript.
- For purposes of athletic eligibility, a Credit registers as a grade of "C", a No Credit as a grade of "F."

Withdrawal

- A withdrawal may be given under only unusual circumstances.
- Administrative permission is required for a student to drop a class without penalty after the first week following the first grade report.

Grading Policy and Procedures

If a student repeats a course in order to earn a higher grade, the student cannot be given a double credit for that course. The student's grade point average will reflect all courses attempted and all grades received. Since the student's transcript is a legal document reflecting all student work, all courses and grades should be recorded, including repeated courses. For repeated courses, only five credits are counted for each course. The credit will be shown with the higher grade and "0" credit shown for the lower grade on the transcript. For purposes of calculating GPA points, the highest grade received shall be used in determining the student's overall GPA (AR 5121 Repeated Courses).

Grade reports are designed to communicate with parents regarding student progress.

Whenever it becomes evident that a student is in danger of failing a course, the teacher shall arrange a conference with the student's parent/guardian or send the parent/guardian a written report.

Grade reports are issued three times each semester. The third report each semester includes the final semester grade. Teachers describe their grade reporting procedures at the beginning of the semester.

Semester grade reports are final grades that are assigned twice a year. These grades are recorded on the official transcript/permanent record.

When school property has been damaged or not returned, the parent will be informed that reparation is due. The school may withhold grades, diploma or transcripts until reparation is made (AR 5125.2).

Grade Point Average (GPA) is based on all courses completed and is computed as follows:

A = 4 points B = 3 points C = 2 points D = 1 point F = 0 points

The District wishes to encourage students to take Advanced Placement and Honors courses in academic subjects. Grades received in courses will be counted on the following scale

A = 5 points B = 4 points C = 3 points D = 1 point F = 0 points

Classes Taken Outside the High School

Credit toward graduation may be awarded for completion of a college, community, or university course, but prior approval to take such a course is mandatory. An appropriate program must be approved by the counselor and recorded on the student's current schedule of classes. For credit, the student must submit a transcript of the completed work to the Counseling Office. Arrangement for transfer of this credit is the responsibility of the student.

Program Changes

In order to allow class enrollments to be verified and necessary administrative changes to be made, no student-initiated changes will be made during the first two (2) days of any semester (BP 5121e).

Student-initiated changes may be made only under unusual circumstances. Such changes may be made through the fifth day of the new semester.

Teacher-initiated changes from one course to another course, either within or outside of the department, may be made only up to receipt of the report card of the first marking period of the semester. Changes after that period shall be made only under exceptional circumstances and with administrative approval.

Teacher-initiated changes that transfer a student to a different course level within the department may be made at any time, providing that the change involves no other disruption of the student's schedule.

Within five days of the student's receipt of the first marking period report card of the semester, a teacher, after consultation with the student, parent/guardian and counselor, may recommend "Audit." The student is still enrolled in the class and subject to all requirements of the course but without a letter grade. If the Audit provisions are not fulfilled, the Audit reverts to "D" or "F".

Approval signatures must be obtained from the student's parent/guardian and counselor and acknowledgement signatures must be obtained from the teachers of both the original and requested classes.

A withdrawal may be given under unusual circumstances. Administrative permission is required for a student to drop a class without penalty after the first week following the first grade report.

Other School Policies

- Students who drop a course are expected to enroll in another course within the first three (3) weeks of the semester.
- Board policy requires that all students be enrolled in six (6) courses except under special circumstances.
- Students who change sections or ability levels will carry their "grade to date" to the new class, and it will be included in the final grade computation.
- No course may be added after the 15th day of a semester.

Athletic/Activity Participation Eligibility Requirements

- According to BP 6145, in order to participate in extra/co-curricular activities, students must demonstrate satisfactory educational progress in meeting the requirements for graduation.
- The superintendent or designee may exempt from eligibility requirements extra/co-curricular activities or programs that are offered primarily for the student's academic or educational achievement.

- To encourage and support academic excellence, the Board requires that students earn a minimum 2.0 or C grade point average on a 4.0 scale in order to participate in extra/co-curricular activities.
- Students with any F grades must also maintain minimum progress toward graduation in order to meet eligibility requirements.
- Incompletes, No Marks and No Credits will be calculated as Fs.
- The superintendent or designee may grant ineligible students a probation period or waiver of not more than one grading period, once during the student's sophomore, junior or senior year. The probation period or waiver is generally not available to freshmen. In order to be eligible for probation, a student must have a current GPA between 1.50 and 1.99.
- The Board desires to balance the academic needs of students with the benefits they receive from participating in school activities. In implementing this policy, the superintendent or designee shall help ineligible students regain eligibility.
- The superintendent or designee may revoke a student's eligibility for participation in extra/co-curricular activities when a student's poor citizenship is serious enough to warrant loss of this privilege. The superintendent shall determine the duration of the revocation.
- Students must be enrolled in 20 credits at their school of residency to participate in athletics.
- Classes taken during summer school can be used to make a 9th grader eligible for athletic participation. If the student qualifies under his/her 8th grade GPA and attends summer school and performs poorly, he/she does not forfeit his/her eligibility. Summer school participation can only help.

Special Education and Section 504 Eligible Students

Section 504

Under Section 504 of the Rehabilitation Act, a student qualifies for recommended services related to a disabling condition when there exists a physical or mental impairment that substantially limits one or more major life activities (breathing, walking, seeing, hearing, working, and learning). Section 504 is a federal law enforced by the Office of Civil Rights. It is an anti-discrimination law. It is the intent of the Tamalpais Union High School District to ensure that students who are disabled within the meaning of Section 504 are identified, evaluated, and provided with appropriate access to education. For more information, see the assistant principal or a school counselor (BP/AR6164.6).

Special Education

The Individuals with Disabilities Education Act (IDEA) ensures that all children with disabilities have a free, appropriate education available to them which would meet their unique needs. Through federal and state laws, special education programs and services are provided to students whose disabling conditions interfere with their education. For more information, see the assistant principal or a school counselor (BP/AR 6159).

Students identified as eligible for special education or students eligible for services under Section 504, shall have access to courses at all curriculum levels as appropriate.

Accommodations

Students may take regular courses for regular credit with, if appropriate, reasonable accommodations that do not change course expectations and/or content. Examples of accommodations may include extended time, preferred seating, note taking or shortened homework assignments. Students receiving accommodations will be graded based on established criteria.

Modifications

Students with significant special needs also have the opportunity to take courses in a modified form, if recommended by the IEP or 504 team and with parent notification and consent. Modifications that alter the course expectations and/or content (e.g., requiring the student to learn only a portion of the curriculum content or establishing altered performance standards) shall be specified in the student's IEP or 504 plan. To the extent possible, a determination to modify a course to reflect a student's needs will be determined prior to the beginning of the course or as early in the semester as possible.

Special needs and general education teachers may collaborate on course expectations, content, and grades to be given students in a modified course. The grade given will reflect the student's performance on the modified assignments, and the course will be designated as modified on the student's transcript with a "MODF" before the course number. Modified courses will not be considered college preparation courses but may be used to meet District graduation requirements.

GRADUATION REQUIREMENTS

The *California Education Code* and the *Rules & Regulations of the State Board of Education* require instruction in certain specific fields in all California public schools.

District Graduation Requirements

According to Board Policy 6146.1(a), students shall receive diplomas of graduation from high school only after completing the required course of study and meeting the standards of proficiency established by the District. To qualify for graduation and to participate in the ceremonies, a student must successfully meet the requirements outlined below:

PHYSICAL EDUCATION

Physical Fitness Testing

Freshmen take part in the physical performance testing designated by the State Board of Education each spring. Students with a physical disability and students who are physically unable to take all parts of the test shall undergo as much of the test as their physical condition will permit.

Exemptions/Waivers/Modifications/Accommodations of PE

With the consent of the student, the superintendent or designee may grant temporary exemption from physical education when a student is enrolled for one-half time or less, or when a student is ill or injured and a modified program to meet his/her needs cannot be provided. Permanent exemptions or waivers shall be granted only as provided by law (Education Code 51241).

Pursuant to Education Code 51241, permanent exemptions from physical education are allowed for a student who is:

- Sixteen or older and has been in grade 10 for one or more academic years;
- Enrolled as a postgraduate student; or,
- Enrolled in a juvenile home, ranch, camp or forestry camp school

IEP or 504 Accommodations/Modifications

Teachers shall implement the accommodations or modifications for physical education as specified in a student's IEP or 504 Plan.

Medical Exemptions

Schools must abide by a doctor's recommendation. A student who has a medical condition that precludes him/her from participation in any particular activity may be exempted from that activity

with a written recommendation from a doctor which prescribes the types of physical activity which can/cannot be done by the student. One such recommendation will suffice for a student's entire school career.

A student with a temporary medical condition may be excused from all or part of a semester physical education class. A doctor's recommendation which prescribes the types of physical activity which can/cannot be done by the student shall guide teachers in decisions about the student's program. Students who are unable to complete the semester class may drop and complete the semester at another time. Students who are able to complete one quarter will be awarded 2.5 credits and a grade based upon that quarter's work. In the event that the student has medical excuses for more than 20 semester credits, the physical education requirement will be adjusted to equal the number of semester credits that the student is in school and can participate in a physical education class.

A student who cannot complete at least one-half a quarter due to a medical reason certificated by a physician must do one of the following:

- Engage in activity deemed appropriate by the attending physician
- Engage in an alternative activity arranged by the teacher and student
- Drop the quarter of P.E. and receive no credit.

A note from a parent/guardian may temporarily excuse a student from physical education. A note from the parent/guardian may excuse a student from active physical education for three (3) consecutive days. If the parent/guardian deems it necessary, he/she may excuse the student for an additional three consecutive days. If the student is still unable to participate at the end of this time, a doctor's note, delivered within three (3) days after the parental excuse terminates, is required, stating in which activities, if any, the student cannot participate. The teacher, student, and parent/guardian shall discuss alternative activities or a modified program based upon the doctor's recommendation.

Religious Beliefs

Students shall be excused from certain activities with another activity substituted upon receipt of a written notice from the parent/guardian that an activity is contrary to the religious beliefs of his/her student.

Transfer Students

- Students transferring into the District may be exempted from all or part of the physical education requirement.
- Students transferring from another California public school district must meet the requirement regardless of year in school.
- Students transferring into the District from out of state, or private school, as a ninth or tenth grader shall meet the District requirement.
- Eleventh or twelfth grade transfer students from alternative programs, private schools, or out-of-state schools are encouraged to enroll in physical education classes but are not required to do so. They may enroll in the elective program even if they have not completed the District's core curriculum.

Special Circumstances

Students occasionally have special circumstances other than medical, religious beliefs, or transfer status that may warrant some accommodation or modification of their physical education program. The following procedures shall be used to address special circumstance needs:

- Student and parent/guardian arrange a conference with teacher and counselor to identify the special circumstances.
- During this conference, every effort will be made to meet the student's needs within the regular physical education class. If it is determined that this can be done, written agreement specifying the activity plan, expectations for attendance, and grading criteria shall be developed by the teacher and student. The agreement shall be signed by teacher, parent/guardian, and student.
- If it is determined that the student's special circumstances cannot be met through some modification/accommodation in the regular physical education class, the conference group may recommend referral to Independent Study (either part-time at the school or full time through Tamiscal). Acceptance into Independent Study shall be made in accordance with BP/AR 6158. Students must meet all requirements of the Independent Study program in order to continue in Independent Study.

Appeal Process

Level 1 - Parents/guardians who wish to appeal a) the decision reached in the special circumstances conference, or b) the decision made by the principal or designee regarding exemptions or waivers shall present their appeal in writing to the school principal or designee.

Each school shall establish a review committee with representation from the physical education department, counseling department, and administration to consider individual appeals. The committee will recommend action to the principal who shall make the final decision. Written notice of the decision shall be provided to the student, parent/guardian, counselor, and physical education teacher leader.

Level 2 - Parents/guardians who wish to appeal a decision made at the school level may appeal, in writing, to the assistant superintendent in Educational Services. Written notice of the decision shall be provided to the student, parent/guardian, and school principal.

Credit in Physical Education

Students are encouraged to complete at least ten (10) units of the core curriculum during grades 9 or 10. Since the state-mandated Physical Fitness Test is administered to all ninth graders, whether or not they are enrolled in a physical education class, ninth graders are strongly encouraged to enroll. However, the entire twenty (20) credit requirement for graduation can be met at any time during the student's high school years. If a student fails any semester of the core curriculum, they must repeat that course.

Partial credit on the basis of 2.5 credits for one quarter may be offered for students who, because of circumstances beyond their control (such as transfer status, medical condition, or extended leave of absence) are unable to complete the full semester course. If credits are awarded on a quarter basis, students shall earn a letter grade for that quarter. If only semester credits are awarded, the semester grade shall be the average of the two quarter grades.

A student who cannot complete at least one half of a quarter due to a medical reason has the option of arranging alternative activities or dropping the quarter and receiving no credit. Such a

student is not automatically exempt from the 20 credit requirement for graduation (see Medical Exemptions on page 13) and will need to make up the quarter credit at another time.

The Graduation Ceremony

Important note to Parents and Students: The Tamalpais Union High School District staff and administration do not encourage or condone cutting classes at any time for any reason. Any attempt to legitimize it as a senior privilege is unacceptable. In order for a senior to participate in the graduation ceremony, the student must be a senior in good standing. The Tamalpais Union High School District School Board recognizes the need for school sites to maintain high standards of student conduct and behavior, and therefore supports the practice of providing the traditional graduation program/ceremony for students in good standing. The graduation ceremony is held to recognize seniors who have successfully completed the required course of study and number of credits, passed minimum proficiency requirements in reading, writing, math and computer proficiency, and demonstrated good attendance, academic achievement and appropriate behavior throughout their final semester.

The Senior in Good Standing Policy

The following school policy has been the practice of the Tamalpais Union High School District for several years. Designed by parents, teachers and administrators, the policy holds second semester seniors to continued academic and behavioral expectations commensurate with the District's high standards. Participation in the graduation ceremony is voluntary and considered a privilege. Under the policy, a student may qualify to earn a graduation diploma, yet still be restricted from participation in the ceremony. Eligibility to participate in the graduation ceremony includes:

- Meeting District and State graduation requirements;
- Earning passing grades in all courses. Grades of "F" or Incomplete in any course may prevent students from participating in the graduation ceremony;
- Attending Classes. Students who receive partial credit as a result of five (5) or more unexcused absences in any class, including tutorial, during their final semester will be restricted from the ceremony;
- Behaving appropriately as defined in the site Handbook Addendum; and,
- Paying outstanding bills.

An appeal process is in place at each high school. Additional information is located on each school's website or in the site Handbook Addendum.

College Entrance Requirements

Preparation for college during the high school years is important and necessary. Any student who anticipates college attendance should plan a program of studies beginning the first day of entrance into high school.

A student's scholastic record during the four years of high school will be one of the single greatest factors in admission to college. A poor scholastic record will close the doors to many institutions while a good record may open the way to unexpected opportunities. Colleges are interested in a student's work in the community. Good citizenship, including participation in school activities, as well as volunteer and service work, will result in good recommendations and will increase the chances of the student being accepted by the college the student has selected.

Please note: *Some colleges ask counselors to report if students have been suspended from school for any reason. Colleges sometimes alert students to last-minute rejections, based on a drop in final semester grades and/or attendance problems. Students should understand that counselors must respond honestly to all such requests.*

Examinations for College Admission

Students must check the admission examination requirements for each college or university in which they wish to enroll. Presented below are descriptions of typical examinations required across the United States.

SAT I - Scholastic Assessment Tests – Reading, writing and mathematics assessment tests. Scores on these tests are used by colleges to determine a student's probable success in college. Preparation classes are available through the District Community Education program. Test dates are usually scheduled in October, November, December, January, March, May, and June. For more information visit the College Board website at www.collegeboard.com.

SAT II - Subject Tests - Available in foreign language, social science, English composition and literature, science, and mathematics. Test dates are usually scheduled in October, November, December, January, March, May, and June. For more information visit the College Board website at www.collegeboard.com.

ACT - American College Test - Four (4) sub-tests in English, mathematics, social studies and natural science. The ACT is accepted by almost all colleges in lieu of SAT/Subject tests. Test dates are usually scheduled September, October, December, February, April, and June. For more information visit the College Board website at www.collegeboard.com.

PSAT - Preliminary Scholastic Assessment Test – This test is taken normally by juniors as a "warm up" for the SAT. Scores on this test are used to determine eligibility for the National Merit Scholar competition. Sophomores who have completed geometry are encouraged to take the exam. The test is usually scheduled in October. The Counseling Office has more information.

AP Exams - Advanced Placement Exams – These exams are available for students who have exceptional talent or interest in particular areas. Students generally take a related Advanced Placement course before taking the exam, although students may take the exams without having taken the course. Successful completion of the exam may earn college credit. The tests are usually scheduled for mid-May each year.

CLEP - College Level Examination Program – This testing program is similar to the AP program and used by some colleges to grant credit or advanced placement.

Community College Tests - College of Marin and other community colleges require that students take placement tests in English and mathematics. College and Career Center will have information about testing. Some tests can be taken at the high school site.

California State University and College Tests - The CSU requires new students to be tested in English and mathematics as soon as possible after they are admitted and before the term begins. The tests are used to determine whether students are prepared for college work; and if they are not, to place the students in appropriate remediation courses or activities. Students may be exempt from one or both of the tests if they have scored well on other specified tests or have completed appropriate courses.

EAP – The Early Assessment Program- This test is designed to determine students’ readiness to do college work and consists of three tests – multiple choice tests in English and mathematics and an essay - that are included as part of California’s annual content standards tests in the STAR tests. Juniors who take the EAP may be exempt from CSU placement exams depending on the score received. The College of Marin and Santa Rosa Junior College have agreed to accept the EAP test results as a waiver to their readiness assessments. A complete list of community colleges who have agreed to accept the EAP can be found on <http://extranet.cccco.edu/Divisions/StudentServices/EAP/AcceptingEAP.aspx>. More information is available at <http://www.cde.ca.gov/ci/gs/ps/eapindex.asp>

EPT - English Placement Test - Entering freshmen are required to take this placement test in English unless they receive a score of 550 or higher on the SAT I verbal, a score of 24 or higher on the English part of the ACT, a score of 680 or higher on the College Board SATII Writing Test, or a score of 3, 4, or 5 on either Languages and Composition or Literature and Composition examination of the College Board Advanced Placement program. A college course that satisfies the requirement in English Composition with a “C” or better that is completed and transferred to the CSU also exempts the student from this test.

ELM - Entry Level Mathematics Placement Examination - Entering freshmen are required to take this placement test in math unless they receive a 550 or higher on the math part of the SAT I, a 23 on the math part of the ACT, a 550 or higher on Mathematics Level IC or IIC of the SAT II or a 3 or above on the College Board Advanced Placement Statistics or Calculus (AB or BC) exams.

University of California Tests

Analytical Writing Placement Exam - Some University of California campuses require entering freshmen to take the Analytical Writing Placement Examination (formerly known as Subject A Examination) if they score below 680 on the English Composition Subject Exam or score a 2 or lower on an English Advanced Placement exam. Students failing the placement exam are registered for an appropriate English course.

Alternatives to the High School Diploma

California High School Proficiency Exam - The exam is offered twice a year to students who have finished their sophomore year or are sixteen years of age and are seeking an alternative to the standard high school diploma. Students who pass the test are awarded a proficiency certificate by the California State Department of Education. Applications and more information may be obtained at the Counseling Office or at <http://www.cde.ca.gov/statetests/chspe/>. Parent permission is required for students who pass the test in order for them to leave high school.

Adult High School Diploma - An Adult School diploma program is designed for students who did not finish high school with their class. Diploma requirements are the same as in all TUHSD

high schools. However, students work at their own pace with no pressure, often in small classes. Independent study and teacher-directed instruction allow for individualized plans for credit completion. To register, contact Adult Education at (415) 945-3780 or current high school counselor.

General Educational Development (GED) is designed for people who did not graduate from high school but want a certificate of completion equivalent to the traditional high school diploma. The GED test credential is the only high school equivalency credential recognized in all 50 states. The examination tests knowledge in five subject areas: Language Arts, Writing; Language Arts, Reading; Mathematics; Science; Social Studies. The GED test is given in both English and Spanish. Modifications and special accommodations for learning or physically disabled students can be provided with advance arrangements. To register, contact Adult Education at (415) 945-3780. <http://www.cde.ca.gov/ta/tg/gd/>

Regional Occupational Program (ROP)

ROP offers tuition-free occupational training to Marin County residents 16 years of age and over. Information about the program may be obtained from the Marin County Office of Education (415-472-4110) or the Career Guidance Center. Credits count toward graduation as elective credits.

Scholarships and Financial Aid

Most colleges and universities offer scholarships of varying amounts to deserving high school seniors. If you are interested in obtaining scholarship assistance, ask the career guidance advisor or your high school counselor. Most scholarships are awarded on the basis of financial need and scholastic standing, but some are available for special interest groups.

Students who feel that they will need financial aid in attending college should check deadline dates for applications with their counselors. Recommended reading material on scholarships and financial aid is available in the Counseling Office and in the Career Guidance Center. There are many different sources that give various kinds of scholarships.

A number of local scholarships and awards are available each year. The College and Career Coordinator can give you more information about these as well as other scholarships and awards available.

The Marin Education Fund provides a wealth of free financial aid and scholarship information to Marin County residents. They provide workshops for parents and students. Contact them at (415) 459-4240.

STUDENT RIGHTS AND PROTECTIONS

This section of your Student Handbook is intended to provide students and parents with accurate information about students' rights and responsibilities. It reflects a portion of current laws and District policies that often affect high school education. The abridged version that follows includes only subjects deemed most crucial. For information on student rights and responsibilities, see a school or District administrator.

Constitutional Rights

A student's education in high school is more than just a responsibility. The California Supreme Court has held that both education and attendance at a public school are fundamental rights of all

people in the state and are both guaranteed and protected by the California Constitution. That document states that all students have the responsibility to "comply with the regulations, pursue the required course of study, and submit to the authority of the school," under the limitations of students' rights.

Compulsory Education

According to state law, it is the responsibility of parents to place their students in public or private day school during each school year while students are age six to eighteen. However, exemptions to day school attendance must be granted to students who:

- Have a physical or mental condition which prevents or strongly discourages attendance at a school;
- Are being instructed for at least three hours a day for 180 days each calendar year in subjects required by the Education Code, by a private tutor holding a valid teaching credential;
- Have been assigned to a vocational program;
- Are in a place of employment, providing they are over age 14 and have a valid work permit; or,
- Have a valid work permit and are so employed, while still attending part-time classes.

Access to Records (AR5125)

Mandatory access will be provided to the following persons or agencies:

- Natural parents, adoptive parents, or legal guardians of students younger than age 18. Upon request, qualified certificated staff will be available to interpret records (EC §49069).
- Adult students age 18 or older (EC §49061).
- Those so authorized in compliance with a court order and lawfully issued subpoenas (EC §49077). If lawfully possible, the District shall first give the parent or adult student three days' notice, telling who is requesting what records (Title 5, § 435).

The following persons or agencies shall have access to those particular records that are relevant to the legitimate educational interests of the requester:

- Natural parents, adoptive parents, or legal guardians of a dependent student age 18 or older (EC §49076)
- Student 16 or older or who has completed the 10th grade (EC §49076).
- School officials and employees (EC §49076).
- School Attendance and Review Board members and involved school officials and employees (EC §49076).
- Officials or employees of other public schools or school systems where education programs leading to high school education are provided (EC §49076).
- Federal, state and local officials, as needed for program audits or compliance with law (EC §49076).
- County child welfare services workers responsible for the case plan of a minor who is being placed in foster care (Welfare and Institutions Code 16010).
- Representatives of agencies with whom the District has contracted for support services (e.g. Bay Area Community Resources).

Parental consent is not required when information is shared with other persons within educational institutions, agencies or organizations obtaining access, so long as those persons have legitimate interest in the information (EC §49076).

Release of Directory Information (BP/AR 5125.1)

Directory information shall not be released regarding any student whose parent/guardian notifies the District in writing that such information may not be disclosed (Education Code §49073).

Unless prohibited by the parent/guardian in accordance with law, directory information which school officials may disclose consists of the following: student's name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of athletic team members, dates of attendance, degrees and awards received, and most recent school attended.

- Private schools or colleges under certain conditions (Education Code §49073);
- Military service representatives – unless parents deny access (Education Code §49073.5);
- Authorized representatives of the Comptroller General, the Secretary of Health, Education and Welfare, United States Office of Civil Rights, and other state or county educational agencies under certain conditions (Education Code §49076(a)(1)(C));

With the concern for the total well-being of each student, District employees shall report known or suspected instances of child abuse in accordance with state law and District regulations (AR5141.4a). Employees will cooperate with child protective agencies responsible for reporting, investigating and prosecuting cases of child abuse.

Student Expression

According to BP5145.2, free inquiry and exchange of ideas are essential parts of a democratic education. The Board of Trustees respects students' rights to express ideas and opinions, take stands, and support causes, whether controversial or not, through their speech, their writing, their clothing, and the printed materials they choose to post or distribute.

Student freedom of expression shall be limited only as allowed by law in order to maintain an orderly school environment and to protect the rights, health, and safety of all members of the school community. Students shall not be disciplined solely on the basis of constitutionally protected speech or other communication

Nondiscrimination in Employment and Title IX

The Board of Trustees designates the following person as Coordinator for Nondiscrimination in Employment and for Title IX:

Discrimination - The Tamalpais Union High School District, in strict accordance with state and federal laws, does not discriminate against any person on the basis of gender, race, color, religion, ancestry, national origin, ethnic group, marital or parental status, physical or mental disability, sexual orientation or the perception of one or more of such characterizations.

Title IX - Discrimination on the basis of gender in any program or activity of this District is not to be permitted. All District employees are required to comply with all provisions of this policy and the Title IX Amendments of 1972.

Complaints

If a student or parent believes that he/she is not receiving the education to which the student is legally entitled; if the student feels that he or she is not being treated with courtesy and respect; or if the student or parent has a complaint regarding instructional material, the student/parent should first contact the person responsible. Often a concern can be reconciled at this level. Conflict resolution is a process which encourages good faith and an equitable mediation format. If this step brings no resolution, the student is legally entitled to use one of the following complaint procedures:

- Every effort should be made to resolve a complaint at the earliest possible stage. Parents/guardians are encouraged to attempt to orally resolve concerns with the staff member personally.
- If a complainant is unable or unwilling to resolve the complaint directly with the person involved, he/she may submit an oral or written complaint to the employee's immediate supervisor or the principal. If the complainant is unable to prepare the complaint in writing, administrative staff shall help him/her to do so.
- When a written complaint is received, the employee shall be notified in accordance with collective bargaining agreements.
- The person responsible for investigating complaints will attempt to resolve the complaint to the satisfaction of the person(s) involved within 30 days.
- The complainant may appeal a decision by the principal or immediate supervisor to the superintendent or designee, who will attempt to resolve the complaint to the satisfaction of the person(s) involved within 30 days. The superintendent's or designee's decision should be considered and accepted as final. However, the complainant, employee or the superintendent or designee may ask to address the Board regarding the complaint. The Board may uphold the superintendent's decision without hearing the complaint, or the Board may ask all parties to a complaint to attend a Board meeting in order to present all

available evidence and allow every opportunity for explaining and clarifying the issue. The decision of the Board shall be final.

In order to promote fair and constructive communication, there are procedures which govern the resolution of complaints against the use of any instructional materials, including textbooks, supplementary textbooks, library books, and other instructional material and equipment. A brief summary is provided below:

- Complaints must be presented in writing to the principal. The complaint must name the author, title and publisher, and identify the objection by page and item number. If the complaint is against non-printed material, written information must state the precise nature of the objection. The complaint must be signed and identified so a proper reply will be possible.
- An individual student may be excused from using challenged materials after the parent/guardian has presented a written complaint. The teacher will assign alternate materials of equal merit.
- The principal shall notify the superintendent or designee who will determine whether the complaint should be considered on an individual basis or whether a review committee should be convened.
- The review committee shall determine the extent to which the challenged material supports the curriculum, the educational appropriateness of the material, and its suitability for the age level of the student.
- The review committee shall summarize its findings within 30 days and submit it to the superintendent or designee for final action. The superintendent or designee shall notify the complainant of his/her action no later than 60 days after the complaint was filed. The report of the review committee with the superintendent or designee's recommendation may be brought to the Board of Trustees for consideration and final decision.

The following Uniform Complaint procedures are used to address complaints that allege that the District has violated federal or state laws or regulations governing educational programs:

- An individual, public agency, or organization may file a written complaint of an alleged noncompliance by the District. The complaint must be in writing and contain a concise statement of the facts constituting the grounds for the complaint and the laws or regulations violated. The complaint must be signed and dated by the complainant.
- If the complainant is unable to put the complaint in writing due to conditions such as illiteracy or a disability, District staff shall help him/her to file the complaint.
- The complaint shall be presented to the superintendent or designee who will give it to the appropriate compliance officer.
- Within three working days, the compliance officer shall informally discuss the possibility of using mediation.
- If the mediation process does not resolve the problem, the compliance officer shall hold an investigative meeting at which the parties may discuss the complaint and question each other and each other's witnesses.
- Within 60 days from receipt of a complaint, the superintendent or designee shall complete the investigation and prepare a written decision and send it to the complainant.
- Any complainant may appeal a District decision to the California Superintendent of Public Instruction by filing a written appeal within 15 days of receiving the District decision.

Sexual Harassment

The members of the Tamalpais community are united in the belief that sexual harassment, or any other kind of harassment, will not be tolerated in or out of school. In an effort to address the problem of sexual harassment, the Tam District has adopted a policy and procedures to deal with harassment when it occurs (BP5145.7).

What exactly is sexual harassment?

In accordance with AR5145.7, prohibited sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature made against another person of the same or opposite sex in the educational setting, under any of the following conditions:

- Submission to the conduct is explicitly or implicitly made a term or condition of a student's academic status or progress.
- Submission to or rejection of the conduct by a student is used as the basis for academic decisions affecting the student.
- The conduct has the purpose or effect of having a negative impact on the student's academic performance or of creating an intimidating, hostile, or offensive educational environment.
- Submission to or rejection of the conduct by the student is used as the basis for any decision affecting the student regarding benefits and services, honors, programs, or activities available at or through any district program or activity.

Other types of conduct which are prohibited and which may constitute sexual harassment include, but are not limited to, the following:

- Unwelcome leering, sexual flirtations or propositions;
- Unwelcome sexual slurs, epithets, threats, verbal abuse, derogatory comments, or sexually degrading descriptions
- Graphic verbal comments about an individual's body or overly personal conversation
- Sexual jokes, derogatory posters, notes, stories, cartoons, drawings, pictures, obscene gestures, or computer-generated images of a sexual nature
- Spreading sexual rumors
- Teasing or sexual remarks about students enrolled in a predominantly single-sex class
- Massaging, grabbing, fondling, stroking, or brushing the body
- Touching an individual's body or clothes in a sexual way
- Impeding or blocking movements or any physical interference with school activities when directed at an individual on the basis of sex
- Displaying sexually suggestive objects
- Sexual assault, sexual battery, or sexual coercion
- 12. Electronic communications containing comments, words, or images described above

What can a student do when he or she feels sexually harassed?

Informal Resolution

- The student is not required to do this, but he or she may directly inform the person engaged in such conduct that such conduct is offensive and must stop. The student may ask for help in representation to speak with the alleged harasser.
- The student may ask a teacher, counselor or school administrator to mediate a resolution to the problem before attempting to engage in a formal process.

Formal Complaint

- The student may file a written complaint with the principal or designee regarding the harassment. The student may ask any school employee to assist him or her. A formal complaint form will be provided.
- A complaint policy procedure is available by asking the principal's secretary.
- The principal or designee shall review the complaint, commence a thorough and complete investigation of the complaint, and make a written report available to the complainant and to the alleged harasser. Disposition of the complaint may include, but is not limited to, disciplinary action up to and including expulsion. Any employee who permits or engages in sexual harassment may be subject to disciplinary action.
- If a complainant or the alleged harasser is dissatisfied with the investigation and/or its disposition, he or she may file a written appeal to the superintendent.

Infectious Diseases

- According to BP 5141.22, the Board of Trustees recognizes its dual responsibility to protect the health of students from risks posed by infectious diseases and to uphold the right of students to a free and appropriate education. The District requires all staff to routinely observe universal precautions to prevent exposure to blood-borne pathogens and prevent the spread of all infectious diseases.
- The admission of a student with a disease that is contagious within the school setting shall be determined by the superintendent or designee in accordance with standard procedures. The District shall exclude students only in accordance with law.
- The Board created and adopted a comprehensive policy on infectious diseases. A copy of the complete policy, *Control of Infectious Diseases*, is available in the District office.

Legal Rights of Students and Parents

Under federal and state regulations, students and parents have rights which could have an effect on the educational program. A complete explanation of these rights is attached to the enrollment form completed by parents or guardians; it is also sent in the summer mailing. This information is available at the school or District Office.

WILLIAMS UNIFORM COMPLAINT PROCEDURES

It is the intent of these regulations to discourage and eradicate drug and alcohol activities on the District campuses.

Rules and regulations concerning drug activities shall encompass and implement the laws of the state to their fullest extent to achieve the Board's goal of eradication of drug and alcohol activity.

It is the policy of the Board to work with and utilize appropriate law enforcement agencies in active cooperation to identify and deal with student drug and alcohol offenders. Procedures implementing this policy shall be in accordance with state law and due process.

The Board believes in the value of education about drugs and alcohol and substance abuse for District students. Appropriate health instruction shall be offered in order to ensure broad student participation in drug and alcohol education. It will include substance-abuse education, health education and sex education.

One of the elements to be included in the health education activity is communication of the stance of the Board toward drug and alcohol activities on campus, as set forth in this policy (BP 5131.6).

When gangs constitute a danger to students, the superintendent or designee may restrict student dress and grooming as necessary to comply with board policy related to gang activity (BP 5136).

Skateboards and Roller Blades

Skateboards may be used as a means of transportation to school. During the school day skateboards must be secured in a locker. They may not be ridden to and from class or in the corridors or the paths on campus. Violators will have their skateboards taken away and retained in the office. In order to promote campus safety and to assist administrators and staff in accurately identifying district students and non-students, all district students shall be photographed annually as part of the yearly school/class registration process. Each student must complete this process in order to receive his or her schedule and attend class. Student photos will be maintained in the school offices and used for student discipline and campus safety purposes.

STUDENT SERVICES

Activities & Clubs

The distribution of information of student clubs and special interest organizations is encouraged as a way of getting to know students who share similar interests and hobbies. Some clubs are well established and continue from year to year. Others are started by students who are able to enlist the support of a faculty member who acts as an advisor and goes through the steps to register the club as an "official" part of the student body.

MCAL Regulations On Fans' Conduct

The essential elements of character building and ethics in CIF sports are embodied in the concept of sportsmanship and six core principles: trustworthiness, respect, responsibility, fairness, caring and good citizenship. The highest potential of sports is achieved when competition reflects these "six pillars of character."

Everyone involved in competition, parents, spectators, associated student body leaders, and all auxiliary groups have a duty to honor the traditions of the sport and to treat other participants with respect. Coaches have a special responsibility to model respectful behavior and the duty to demand that their student-athletes refrain from disrespectful conduct including verbal abuse of

opponents and officials, profane or belligerent trash-talking, taunting and inappropriate celebrations.

Transportation for Athletes

The District will provide transportation for student athletes to and from athletic events by contract with private transportation providers, to the extent that funds are available for this purpose. When funds are not available, the superintendent or designee will neither authorize nor arrange for the transportation of the students by private automobile. Rather, students and/or their parents/guardians will be expected to assume responsibility and make their own arrangements for transportation.

Consequences for Athletes Regarding Drinking/Drugs (at school-related events)

1st Offense

School disciplinary action: suspension from team/sports participation (games and practices) for a total of ten (10) school or athletic-participation days. Students can watch practice after completion of school suspension. The ten (10) days of suspension from team/sports/activities include the school suspension days. If the current sport season ends before the completion of the ten (10) day team suspension, the remaining suspension days shall be carried forward to the next sport in which the student participates. However, arrangements shall be made for the student to try-out for the next sport.

2nd Offense

Suspension from team/sports participation for 40 calendar days from the date of suspension, not including summer school. If the student participates in a drug treatment program immediately following the second suspension, suspension from athletics and/or activities may be reduced to 30 calendar days from the date of suspension, not including summer school. (It should be noted that school policies regarding the use of alcohol and other drugs will be in effect for all athletic events). These disciplinary actions are cumulative over the four years of high school.

Before being allowed into the lab, the student and parent must sign and return the form, which is found in the student information packet mailed in August.

Reports of Vandalism and Theft

The Tamalpais Union High School District community would like to assume that all students will respect other people's property. Occasionally, however, property is stolen or vandalized. Students are responsible for protecting their personal property from theft and vandalism. While the campus is well supervised, school officials can't be everywhere at all times. The school is not responsible

for the security of personal property. Students should securely lock all items in P.E. lockers during P.E. classes.

Backpacks and personal belongings should not be left unattended. Most student theft is a result of unattended backpacks or unlocked lockers. Lockers and bikes should be secured at all times. Students are responsible for providing their own bike locks.

Incidents of theft or vandalism should be reported immediately to the staff assistant or campus supervisor. The school will investigate all reports of theft. Students are encouraged to file police reports if a bike or car has been vandalized. Recovered goods will be returned to their rightful owner.

Students caught stealing or vandalizing school property will be subject to the appropriate disciplinary consequences and restitution.

Lockers

Lockers are provided as a convenience. Although school officials provide campus supervision throughout the building and school campus, they take no responsibility for the security of these lockers. Students must use only the locker assigned to them (BP5145.12).

Lost and Found

The Lost and Found is located at the desk in the main office. Students may claim articles from the office personnel upon proper identification.

CSF is governed by the state organization. Each member must be approved by the Scholarship Committee and the principal of the school where he/she attends. Life membership is obtained by earning membership FOUR of the last six semesters in school, one semester of which must be based on senior grades. Membership privileges will be granted to ninth graders; however, ninth grade membership does NOT count toward life membership. At graduation, life members are entitled to wear gold cords.

Support Services at School

The Tamalpais Union High School District counselors help students with scheduling, academic issues, school problems, personal concerns, and school-to-career choices. Online access to the many questions parents and students may have regarding counseling services can be accessed through <http://www.tamdistrict.org>.

Students are assigned a counselor when they register for enrollment. In most cases a student will have the same counselor for four years. Students may go to the counseling office during break, lunch, before school, or after school to sign up for an appointment. Counselors will send for students at their earliest convenience. In cases of personal emergencies, however, students should report directly to the counseling secretary, who will find someone to help them immediately. School counselors and other authorized personnel occasionally provide individual as well as small group counseling. The focus of small group support will change according to the needs of students. Examples of groups are those that may address problems such as eating disorders, alcoholism in the family, stress management, grief management, anger management, female concerns, or male concerns. Groups may be formed by special needs or interests of students. Individual counseling for drugs and alcohol or other personal issues is also available as needed.

The College and Career Center offers daily programs, services, and information for college planning and employment options. Once students enter high school and are assigned to a counselor, their counselor can provide assistance and direct students and families to appropriate resources, both inside and outside of school.

Other support systems in place in the Tamalpais Union High School District include:

- Career Guidance Center
The Career Center is often the focal point of college planning and the hub for career exploration. Students can avail themselves of college resources, meet college representatives, and explore information about scholarships and financial aid. Job training can take the form of interest inventories, job shadowing, and listening to career speakers. The Career Center offers college and work-related support, as well as employment opportunities.
- Counselors
The TUHSD counseling staff is committed to helping students with their course pathways to college or career, and with students' personal and social problems interfering with their ability to achieve their academic potentials.
- English as A Second Language (ESL)
Classes are scheduled at Redwood and Tamalpais High Schools and are designed to assist students in understanding the American culture and language.
