

## Personal Laptops on TamDistrict Wireless

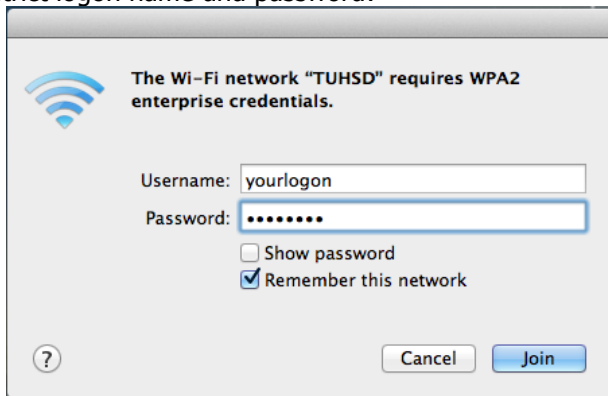

### Steps for laptops running MacOS 10.8:

These steps are for TamDistrict staff and students to join their personal MacOS 10.8 laptop to the District wireless network. NOTE: Earlier versions of MacOS might not be able to join the District wireless.

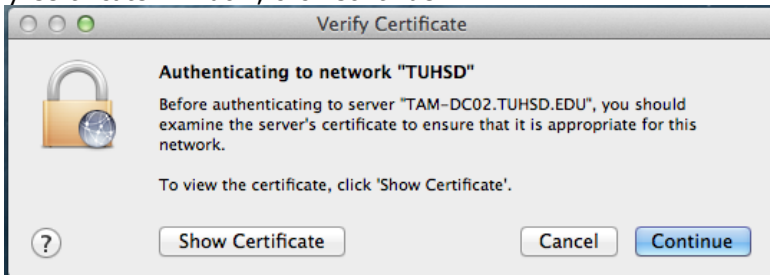

- Click on the Wi-Fi icon in the top menu (near the clock), and select "TUHSD":

- Enter your TamDistrict logon name and password:

- In the "Verify Certificate" window, click Continue:

- Enter the name and password of a local account with administrator-level access, and click "Update Settings."
